Rates apply **within** each band, not to your whole volume — so your effective rate is the blend across every band you reach. Each code's minimum is exactly 10,000 sessions at that code's rate (K0.12 for 3-digit, K0.18 for 2-digit); you pay whichever is greater, your usage or the minimum. All prices are in Zambian Kwacha and exclude 16% VAT. Sessions do not roll over — each cycle starts fresh. Very high volumes are quoted individually.
