

# Your USSD service, live in minutes.

Register, verify your email, and a \*388\*N# shortcode is yours — free for 5 days and 120 sessions.

## What your customers dial

### **\*388\*N#**

1. Check balance
2. Make a payment
3. My account
0. Exit

## Why USSD for this

- Works on every handset — no app, no internet
- Airtel, MTN and Zamtel from one integration
- Free 5-day trial, 120 sessions included
- Live on \*388\*N# in minutes

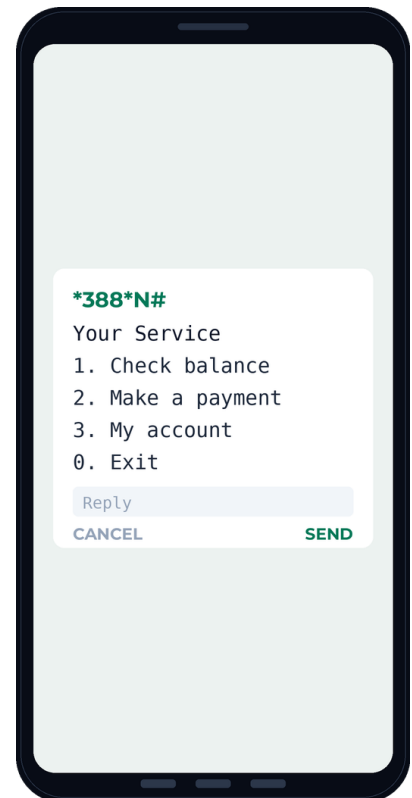

## Getting started

Register at [ussd.ontech.co.zm/dev/register](https://ussd.ontech.co.zm/dev/register) and verify your email.

A \*388\*N# shortcode and API key are issued automatically — nothing to pay.

Point the code at your HTTPS endpoint; it is live within seconds.

Test free in the browser sandbox before a single customer dials.

## One integration, all three networks
