

AGRICULTURE

Reaches the farm, not just the city.

Prices, input vouchers and advisories on any handset, anywhere there is a signal.

What your customers dial

***388*3#**

1. Today's crop prices
2. Input vouchers
3. Weather outlook
4. Extension advice

Why USSD for this

- Works on every handset — no app, no internet
- Airtel, MTN and Zamtel from one integration
- Free 5-day trial, 120 sessions included
- Live on *388*N# in minutes

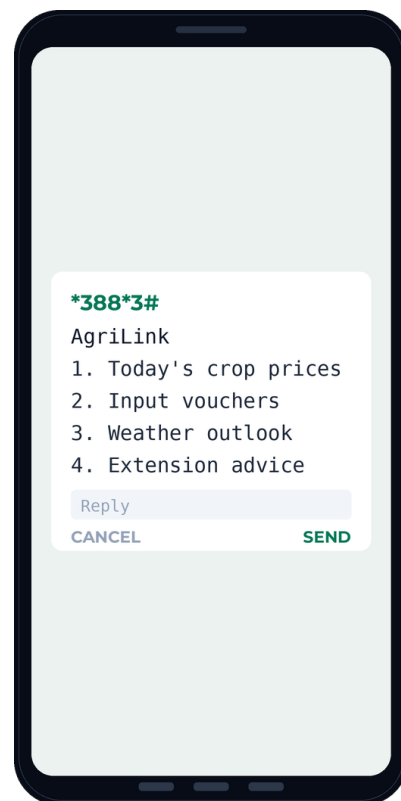

Getting started

Register at ussd.ontech.co.zm/dev/register and verify your email.

A *388*N# shortcode and API key are issued automatically — nothing to pay.

Point the code at your HTTPS endpoint; it is live within seconds.

Test free in the browser sandbox before a single customer dials.

One integration, all three networks
