

Banking that works on every handset.

Balances, transfers and statements over USSD — for customers with no app and no data.

What your customers dial

***388*4#**

1. Check balance
2. Send money
3. Mini statement
4. Pay a bill

Why USSD for this

- Works on every handset — no app, no internet
- Airtel, MTN and Zamtel from one integration
- Free 5-day trial, 120 sessions included
- Live on *388*N# in minutes

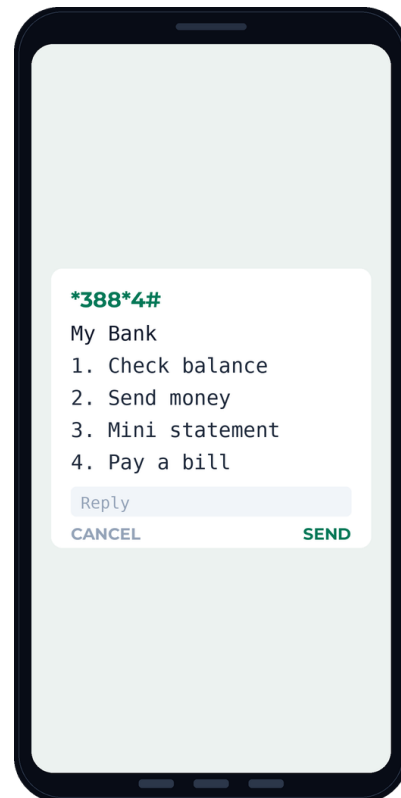

Getting started

Register at ussd.ontech.co.zm/dev/register and verify your email.

A *388*N# shortcode and API key are issued automatically — nothing to pay.

Point the code at your HTTPS endpoint; it is live within seconds.

Test free in the browser sandbox before a single customer dials.

One integration, all three networks

Airtel

MTN

Zamtel
